Dear Tahir Ramzan,

Following the recent audit of your Company's Management System, I am pleased to inform you that the Alcumus ISOQAR Certification Technical Review Team has asked me to issue a certificate confirming registration to **ISO 9001: 2015, ISO 45001: 2018, ISO 27001: 2022**

It is important to stress that any non-conformances found on this or future audits will be the result of limited sampling by Alcumus ISOQAR auditors and therefore it cannot be assumed that others do not exist.

Your certificate is valid until **07/10/2028** subject to effective maintenance of your management system. This will be monitored on a regular basis by ISOQAR and your system will be subject to a recertification audit prior to the period end.

Your first surveillance visit is scheduled for 31/03/2026 as arranged. The date for the following visit will be arranged by the auditor at the close of the first visit.

One surveillance visit (of three days, per visit) has been set for your company in the first year of registration.

Should you wish to display registration logos on your letterhead, promotional materials, or website etc, they can be downloaded from [Members Area](#). You will also find current rules for logo use and we strongly recommend that you refer to these prior to instructing your printers. Please use the password, **Certification0026** to gain access.

Please note that for logo purposes your Certificate Number is **25810**

We hope you are happy with the quality of our service. Alcumus ISOQAR prides itself on maintaining high customer satisfaction levels, to this end we have put in place electronic customer survey forms which are sent upon completion of each client audit visit, if you have not received the link to complete our survey yet, please let us know and we will send you another.

An invoice for your first year of annual registration, which includes payment for surveillance visits, will be forwarded to you in due course. The following years' registration fees will be invoiced on the anniversary of your initial registration.

Yours sincerely,

Samuel Kitson
General Manager - ISOQAR
